EXECUTIVE SUMMARY

The major findings of the 1999 SIAST Graduate Employment Statistics Report are as follows. For comparison, 1998 figures are in brackets.

- 3605 graduates from 197 programs offered through SIAST are covered in this report. 2,605 graduates responded for a **response rate of 72%** (61%).
- Of the 2,605 graduates responding to the survey, 2137 attended a SIAST On Campus Core Program, 845 attended a SIAST On Campus Extension Program and 658 graduates attended a SIAST Off Campus Extension Program.
- **83%** (83%) of respondents indicated they were **working** at the time of the survey. **9%** (10%) were **looking** for work and **8%** (7%) indicated they were **not looking**.
- **91%** (89%) **of the labour force** graduates responding (those working or looking for work) were **employed**. **71%** (74%) were employed in a **full time** occupation. **60%** (61%) of the labour force responding were employed in a **full time training related** occupation.
- **83%** (81%) of working graduates responding were **in a training related occupation**.
- **8%** (7%) of employed respondents indicated they were **self-employed**.
- **74%** (74%) of respondents not working indicated they **had worked** at some time since graduation.
- **30%** (29%) **of unemployed** respondents **indicated not enough experience** as the reason they were unsuccessful in finding a job.
- **76%** (64%) of those respondents **not working or looking** for work indicated they had **returned to school**.
- **20%** (18%) of all survey respondents were **taking some education or training**, with 53% (41%) in a SIAST program.
- **97%** (97%) of all respondents **rated the overall program quality as good to excellent**. **92%** (90%) **said** the **program** had **met their expectations**.
- **79%** (79%) of all employed respondents indicated their training program had **prepared them well or very well for a training related job**.
- **Overall average age** of respondents was **28.5** (27.6) years.
- **62%** (58%) of respondents were **female**. **38%** (42%) were **male**.
- **Average salary** for respondents in **full time training related** employment was **$1979** ($1,920) per month.
- **10%** (15%) of respondents identified themselves as of **Aboriginal** origin. **3%** (4%) said they were **disabled** and **1%** (5%) identified themselves as members of a **visible minority**.
- **95%** (97%) of employed respondents were **working in Saskatchewan**. **43%** (61%) were working **in Regina and Saskatoon**. **5%** (3%) were **working outside Saskatchewan**.

INTRODUCTION

INTRODUCTION

The SIAST Graduate Employment Statistics Report is produced from data collected in the annual SIAST Graduate Employment Survey. This survey collects data on a variety of questions relating to the employment status, evaluation of training, and general demographic characteristics of SIAST's graduates.

Scope

The SIAST Graduate Employment Survey collects data from those graduates who have graduated from a SIAST program of study during the 1998-1999 academic year. Programs surveyed include those offered at the four main SIAST campuses: Kelsey in Saskatoon, Palliser in Moose Jaw, Wascana in Regina and Woodland in Prince Albert and Meadow Lake. Also surveyed were the graduates from SIAST Extension programs offered at numerous locations throughout the province.

The survey provides valuable information on SIAST graduates. This information is used to generate a number of reports of which the SIAST Graduate Employment Statistics Report is the main report produced. Additional reports produced focus on the Aboriginal, Female, Disabled and Visible Minority graduates. A wide range of people, from career counselors and students, to labour analysts and policy administrators, use these reports.

The training programs surveyed are those programs that are 12 weeks or longer in duration. They include Applied Certificate, Certificate, Advanced Certificate, Diploma and Post Diploma Certificate programs. Most of the graduates completed their program in the late spring of 1999 and were surveyed approximately six months later.

Methodology

SIAST Registrars provided SIAST Planning, Research and Development with a list of graduates including telephone numbers and mailing addresses. SIAST Planning, Research and Development contacted program heads for confirmation and update of the contact information. Graduates were sent a letter and a survey questionnaire to complete in November/December of 1999. Those graduates who did not respond to the questionnaires were contacted by telephone in February of 2000 by NorSask Consumer Interviewing Services Ltd. of Saskatoon and asked to answer the survey questionnaire. Effort in contacting the graduates was performed to a degree of providing the highest response rate possible.

SIAST Planning, Research and Development personnel input the survey responses that were received through the mail. Data from NorSask Consumer Interviewing Services was collected and input using CATI (computer assisted telephone interview) technology. An electronic format of the telephone results was integrated with the mail-in responses. The data was checked for input accuracy, consistency, and was then analyzed. The SIAST Graduate Employment Statistics Report was compiled from results of the analysis and prepared for hard copy printing and Internet distribution.

Response

All program graduates, as defined in the list provided by the SIAST Registrars, were surveyed and a percentage of this population responded. The results presented in this report are based on only those respondents and relate to their situation at that time. The Graduate Employment Survey did not use random sample methodology.

Format

The SIAST Graduate Employment Statistics Report presents the findings of the Graduate Employment Survey in two main sections: *Overview of Results* and *Program Statistics*.

The *Overview of Results* summarizes the survey results and includes tables and graphs. The areas examined are Program Assessment, Employment Status, Continuing Education, and Demographics. Results are presented for On Campus Core Programs, On Campus Extension Programs and Off Campus Extension programs, as well as a SIAST Total. Additional breakdown of results for the On Campus Core programs is provided based on six program groups or divisions.

The six divisions are:

- Business and Agriculture
- Community Services
- Industrial Training
- Nursing
- Science and Health
- Technology

A complete listing of the programs within each division can be found, either in the table of contents or at the start of each program division section. Some programs do not have individual program pages because of a low graduate or response count. These programs are listed at the start of each program division section and are also included in the overall analysis.

SIAST On Campus Core Programs are defined as any SIAST program offered at one of the four main campuses that is funded by the core budget. SIAST On and Off campus Extension programs are cost recovery funded. Extension Programs are offered either through a distance education learning format, an industry based training format, or a variety of other different delivery formats.

The *Program Statistics* section of the report consists of each program on a single page, listed under one of the six divisions. Information provided for each program consists of:

- Program Name, Type and Campus
- National Occupational Classification
- Graduates and Respondents
- Employment Status
- Training Related Employment Information
- Four Year Employment Trends
- Reason Unemployed
- Enrolled in Any Education or Training
- Reason Not In Labour Force
- Overall Quality of Training Receive
- Special Notes

Employment information is presented as a percentage of the Labour Force.

> ***Statistics Canada defines the Labour Force as those employed or unemployed. Employed is defined as working. Unemployed is defined as not working but looking for work. Not in the Labour Force is defined as those not working nor looking for work. The Employment Rate is defined as the percentage of those in the Labour Force that are working or employed.***

Appendices contain a listing of programs that have changed names or credentials, a copy of the survey questionnaire, a question by question response count, a contact list for further information, and a feedback questionnaire.

Availability

This report is available in two media formats. A paper version is printed and a limited number distributed. An electronic version of the complete report can be found on the SIAST Planning, Research and Development web page at: www.siast.sk.ca/~r_d/index.html. This version of the report is in Adobe Acrobat pdf format and will require the Adobe Acrobat Reader software (available for download on the web page).

Acknowledgements

SIAST Planning, Research and Development would like to thank those graduates who responded to the SIAST Graduate Employment Survey. Appreciation is also extended to the readers of previous Employment Statistics Reports who provided valuable comments and suggestions. Readers are encouraged to make comments and suggestions about this report. Please complete and return the Feedback Questionnaire Form included with this report (Appendix E).

Reproduction of this report or parts thereof is permitted and encouraged provided appropriate acknowledgments are given.

OVERVIEW OF RESULTS

Response Rate

A response rate of over 70% is the highest level of response from graduates this annual survey has ever been able to obtain. Three out of four On Campus Core Program graduates responded to the survey either by mail or by telephone. Two out of three Extension program graduates responded to the survey.

Program Assessment

Which of the following best describes your reason for completing this program?

Most graduates indicated the reason for taking the training was to obtain employment in that field. A large percentage of graduates (31%) from On Campus Extension Programs indicated an update of job skills. This would be expected given the type of programs offered through On Campus Extension. Most programs are for students already in the workplace, with a certificate or diploma.

What is the location of your primary employment?

Most graduates continue to remain in Saskatchewan to work. Almost 95% of SIAST graduates stayed in Saskatchewan. The highest out-migration of graduates is in the Technology division, where just over 12% have left the province compared to 5% of all graduates. The most popular out of Saskatchewan destination to work in continues to be Alberta. Out of Canada employment of SIAST graduates is insignificant at less than 1%.

What is the location of your primary employment?

Location of Employment

Most graduates continue to remain in Saskatchewan to work. Almost 95% of SIAST graduates stayed in Saskatchewan. The highest out-migration of graduates is in the Technology division, where just over 12% have left the province compared to 5% of all graduates. The most popular out of Saskatchewan destination to work in continues to be Alberta. Out of Canada employment of SIAST graduates is insignificant at less than 1%.

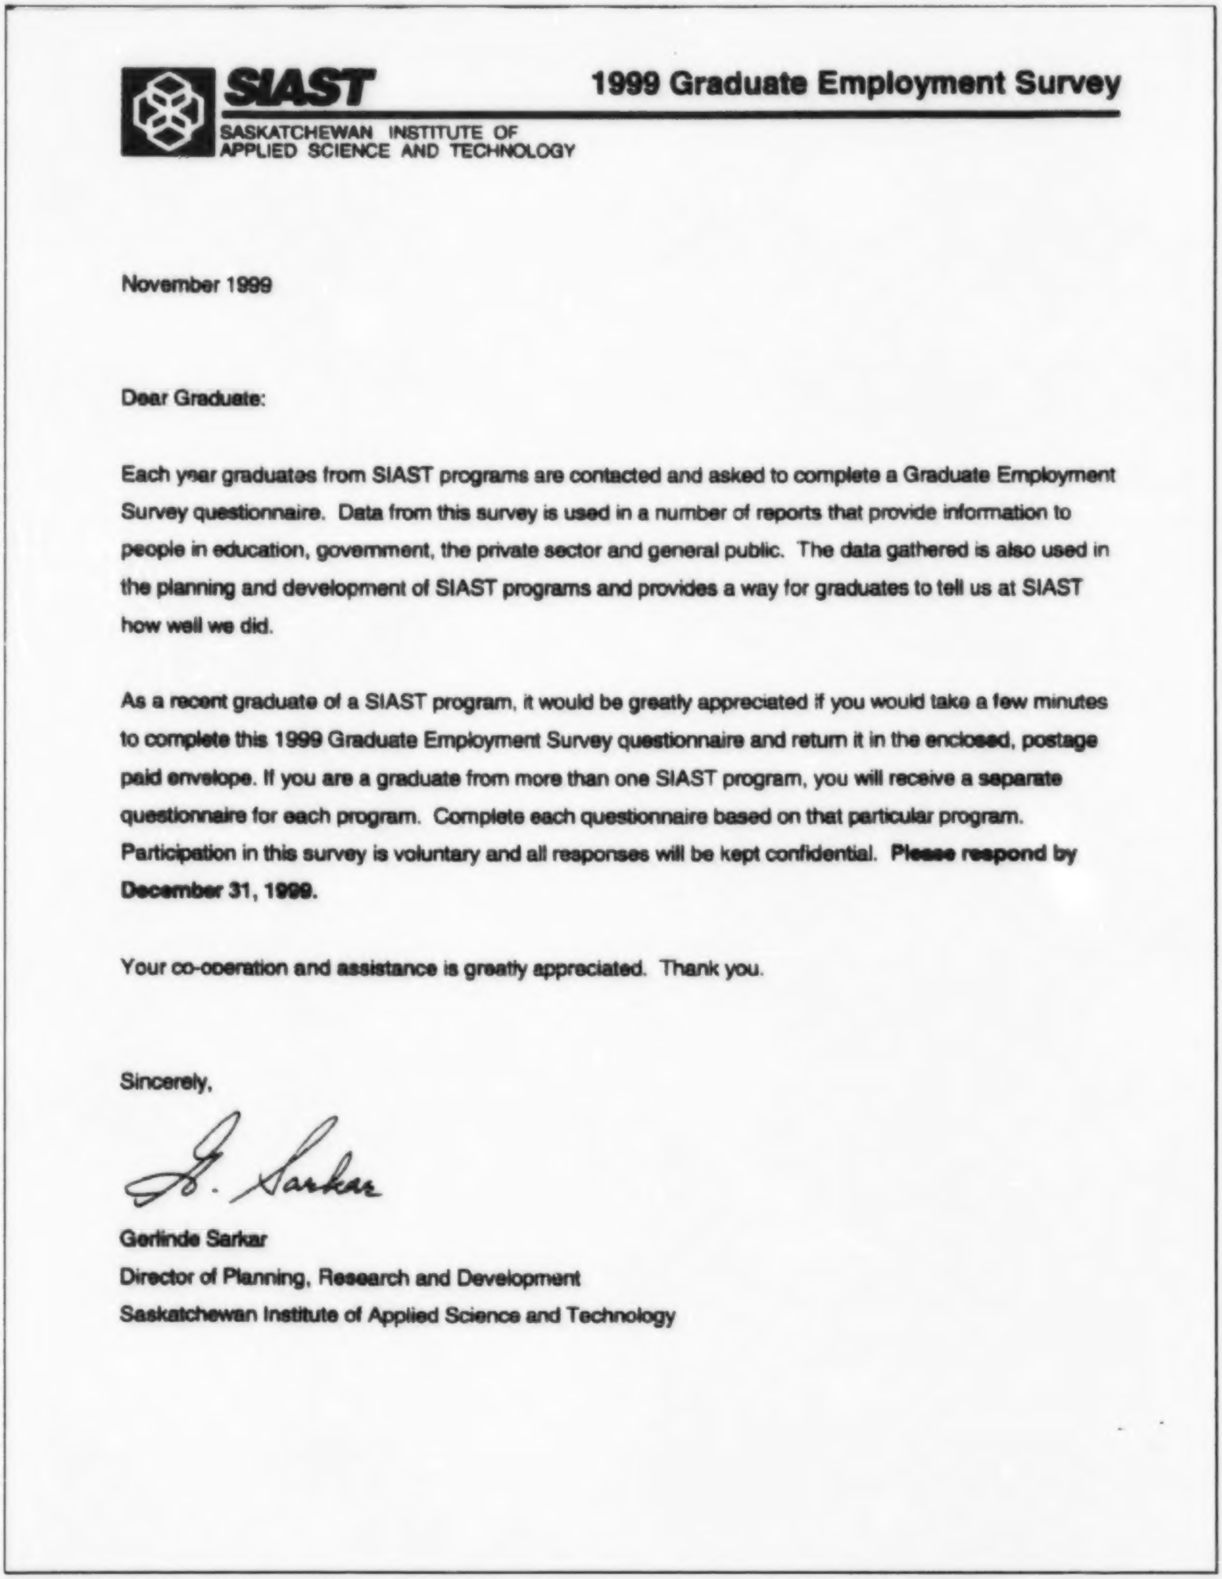
APPENDIX B: 1999 GRADUATE EMPLOYMENT SURVEY



SIAST
SASKATCHEWAN INSTITUTE OF
APPLIED SCIENCE AND TECHNOLOGY

1999 Graduate Employment Survey

November 1999

Dear Graduate:

Each year graduates from SIAST programs are contacted and asked to complete a Graduate Employment Survey questionnaire. Data from this survey is used in a number of reports that provide information to people in education, government, the private sector and general public. The data gathered is also used in the planning and development of SIAST programs and provides a way for graduates to tell us at SIAST how well we did.

As a recent graduate of a SIAST program, it would be greatly appreciated if you would take a few minutes to complete this 1999 Graduate Employment Survey questionnaire and return it in the enclosed, postage paid envelope. If you are a graduate from more than one SIAST program, you will receive a separate questionnaire for each program. Complete each questionnaire based on that particular program. Participation in this survey is voluntary and all responses will be kept confidential. **Please respond by December 31, 1999.**

Your co-operation and assistance is greatly appreciated. Thank you.

Sincerely,

G. Sarkar
